IEG PI NOTICE

No. 6-77

TITLE/SIGNIFICANCE: A possible missile-related railroad car has been observed at various locations within the USSR. More information is required for a detailed analysis.

COMMENT: A "peanut"-shaped railroad car [redacted] has been observed at Zagorsk Ammunition Loading Plant Krasnoyarsk (near Zagorsk Rocket Engine Test Facility), Faustovo Aerospace and Development Facility, and Perm Solid Motor Production Plant. A modified version of this car has also been observed at the Krasnoyarsk Rocket Engine Test Facility. Thus far the car's function has not been determined. Any additional sightings or information concerning a car of this configuration should be brought to the attention of the Missile Systems Division, OIA.
